# INTRODUCTION

This work is in two parts.

The first part is alphabetical by name, and may contain last name, first name, spouse, occupation, work place, and address where the person resides or boards. Most abbreviations that are not self-evident have been replaced with the full words. "Boards" infers that the person lives there but is not the owner. "Resides" often indicates the owner. In many cases, housemen, domestics, and cooks resided in the homes where they were working.

The second part is a listing by street, then by house number, then alphabetically by name. Not all people in the first part are found in the second part, as a number of them had no discernable address, or it was not possible to figure out which of two addresses would be the correct one. Also this section does not list spouses, occupation, or work place.
